# OBS Studio

Latest Release    30.2.3 - August 15th

Windows

macOS

Linux

Free and open source software for video recording and live streaming.

Download and start streaming quickly and easily on Windows, Mac or Linux.

# Companion

Bitfocus Companion enables the reasonably priced Elgato Streamdeck to be a professional shotbox surface for a huge amount of different presentation switchers, video playback software and broadcast equipment.

You don't need an actual stream deck to use it. Companion both comes with a builtin stream deck emulator, a webpage for touch screens and the ability to trigger buttons via OSC, TCP, UDP, HTTP, WebSocket and ArtNet. It does the same job, just without the buttons.
